Pasos Instalar MongoDB y Compass

Descargar

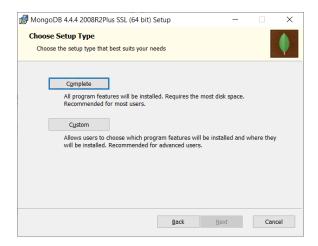

https://www.mongodb.com/try/download/community

Instalar la aplicación

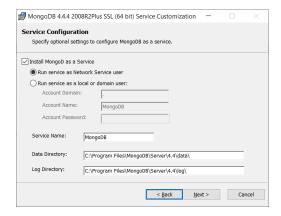

Hacer instalación completa

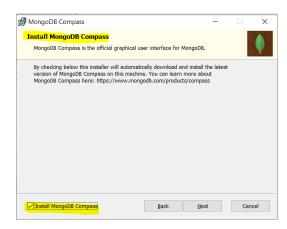

Permitir instalar como Servicio y Ubicación de los datos

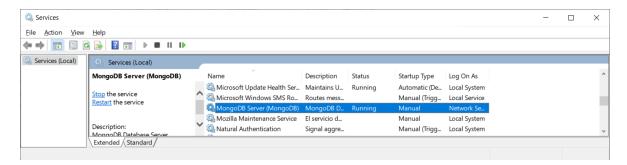

Instalar la herramienta gráfica de administración

Finalizar proceso de instalación de MongoDB y Terminar de instalar el MongoDB Compass.

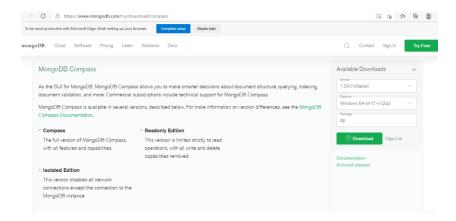

Validar que el servició quedo corriendo

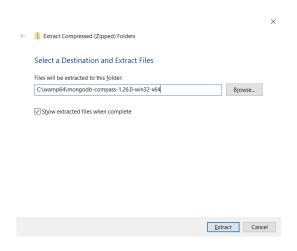

Ejecutar MongoDB Compass

Validar si quedo instalado. De otro modo descargar

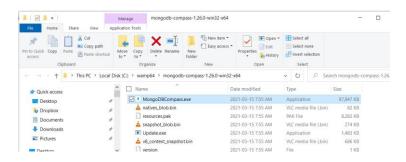

https://www.mongodb.com/try/download/compass

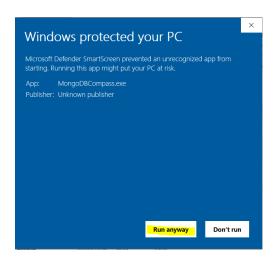

Descomprimir en directorio conocido. Ejemplo

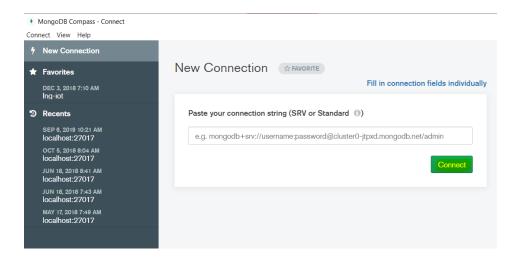

Ejecutar:

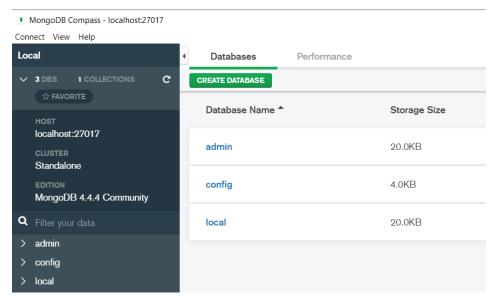

BD2_C3B_Nosql_Mongodb-Instalar.Docx

Conexión por defecto

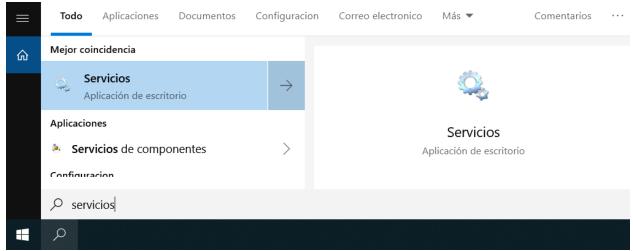

Vista básica MongoDB compass

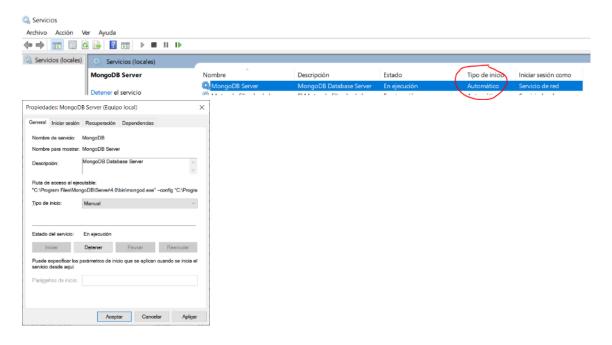

sergalpe@gmail.com

Servicios de MongoDB

Recomendación para NO tener corriendo el MONGO en todo momento. Configurar los servicios

Cambiar de inicio de "automático" a "manual"

Recuerde antes de trabajar en MONGO habilitar nuevamente el servicio
